California Unfair Competition Law	1, 3, 4, 8

1 **I. INTRODUCTION AND SUMMARY OF ARGUMENT**

2 Plaintiffs' Second Amended Complaint ("SAC") rests on circular reasoning unsupported
 3 by facts. Plaintiffs assume that if a Seagate drive failed, whether within or out of warranty, it must
 4 be representative of a "latent model-wide defect." Any and all drives that failed are therefore
 5 "defective" and, because they are "defective," Seagate is legally responsible under California's
 6 Unfair Competition Law ("UCL"), False Advertising Law ("FAL") and Consumers Legal
 7 Remedies Act ("CLRA"), as well as consumer statutes in eight other states. According to
 8 Plaintiffs, such liability attaches irrespective of whether Seagate replaced their drives under its
 9 limited warranty, which Plaintiffs concede it did. If accepted as sufficient to state a claim,
 10 Plaintiffs' allegations would render California warranty law a nullity, because manufacturers
 11 would be subject to liability for product failures irrespective of any alleged defect and irrespective
 12 of whether the manufacturer fulfilled its warranty obligations. This is not the law.

13 To the contrary, the law requires Plaintiffs alleging liability based on a product "defect" at
 14 a minimum to identify *what the defect is*—what part or function failed to perform properly?
 15 Without such allegations, *any* product failure under *any* circumstances and irrespective of *any*
 16 warranty would give rise to potential liability. Analogizing to a lemon law claim, it would
 17 therefore be sufficient merely to allege that a car stopped running—without any specificity as to
 18 which part failed and what the manufacturer did to repair it. Plaintiffs must allege more. At a
 19 minimum, they must identify a particular defect they claim led to their injuries, and they must
 20 connect the specified defect *to* those injuries. Here, moreover, because Plaintiffs have alleged a
 21 course of conduct sounding in fraud, they must satisfy the exacting requirements of Rule 9.

22 Plaintiffs' attempt to distinguish the authorities cited by Seagate misses badly. The law is
 23 clear: merely equating "failure" with "defect" is insufficient. Plaintiffs' cases hold no differently,
 24 and their claims for fraudulent omission therefore fail. Their claims for affirmative
 25 misrepresentation fare no better, as Seagate's alleged statements are neither false nor misleading
 26 as a matter of law.

27 The fundamental problem with Plaintiffs' theory is that Seagate complied with its warranty
 28 terms. It replaced failed drives as it promised. Indeed, with one exception (which fails for another

1 reason), Plaintiffs acknowledge they either received replacements for failed drives or did not
 2 request a replacement after an in-warranty drive failed. As this Court and many others have held,
 3 replacing a failed product during the warranty period obviates legal liability under circumstances
 4 such as those alleged in the SAC. Plaintiffs assert they can avoid this law by resort to the “failure
 5 of essential purpose” doctrine, but they misstate that law and, in any event, even Plaintiffs’ version
 6 of it would not save their claims.

7 Plaintiffs’ breach-of-implied-warranty claims fail because they do not allege privity. The
 8 exception to the privity requirement Plaintiffs attempt to invoke has not been recognized by any
 9 reported California decision and, even if it had, Plaintiffs fail to allege facts supporting its
 10 application here.

11 Finally, several Plaintiffs’ CLRA claims fail because they are either time-barred or have
 12 failed to file the required affidavits, or both. Plaintiffs’ authorities are not to the contrary. The
 13 Court should dismiss this action.

14 **II. PLAINTIFFS’ STATUTORY CLAIMS UNDER ALL STATES’ LAWS FAIL**

15 **A. Rule 9(b) Applies to All of Plaintiffs’ Claims**

16 Plaintiffs do not dispute that their statutory claims must meet the heightened standard of
 17 Rule 9(b), but they insist their warranty claims “do not sound in fraud” and thus that “the strictures
 18 of Rule 8 apply” to those claims. (Opp., 2:8-9.) Not so. Rule 9(b) requires all averments of fraud
 19 to be pled with particularity even where “fraud is not an essential element of the claim.” *Kearns v.*
 20 *Ford Motor Co.*, 567 F.3d 1120, 1124-27 (9th Cir. 2009). A complaint is “grounded in fraud”
 21 where a plaintiff “allege[s] a unified course of fraudulent conduct.” *Id.* at 1125-27.¹ As with all
 22 of Plaintiffs’ claims, the warranty claims allege Seagate “knew” that it sold “defective” drives, and
 23 did so despite that knowledge—*i.e.*, that Seagate engaged in fraudulent activity. (*See, e.g.*, SAC ¶
 24 341 [express warranty claim, alleging Seagate “provided as replacements failed drives that it

25
 26 ¹ Courts have applied Rule 9 to all of a complaint’s allegations, including breach of warranty
 27 where, as here, the entire complaint “sound[s] in fraud.” *See, e.g., Brothers*, 2006 U.S. Dist.
 28 LEXIS 82027, **22-23; *Aloudi v. Intramedic Research Group, LLC*, 2016 U.S. Dist. LEXIS
 52417 (N.D. Cal. Apr. 19, 2016) (finding under Rule 9(b) that plaintiff failed to allege a breach of
 such warranty); *Prime Mover Capital Partners L.P. v. Elixir Gaming Techs., Inc.*, 793 F. Supp. 2d
 651, 678 (S.D.N.Y. 2011) (“Rule 9(b)’s heightened pleading standard applies here because the
 breach claim turns on whether fraudulent conduct adequately has been pleaded”).

1 ‘refurbished’ despite knowing that they were irreparably defective”]; 366 [implied warranty claim,
 2 alleging “Plaintiffs and the Class have been damaged by receiving an inferior product from that
 3 which they were promised”].) Indeed, in attempting to rely on the “failure of essential purpose”
 4 doctrine, Plaintiffs assert Seagate “provided as replacements failed drives that it ‘refurbished’
 5 *despite knowing that they were irreparably defective.*” (SAC, ¶ 341, emphasis added.) Plaintiffs’
 6 warranty allegations are based on the same “course of conduct” sounding in fraud and, thus, Rule
 7 9 applies.

8 **B. Plaintiffs Fail to Allege a False Advertising Claim Under the UCL’s Fraud**
 9 **Prong, the FAL, the CLRA or Any State Consumer Statute**

10 **1. Plaintiffs’ Fraudulent Omission Claims Fail**

11 **a. Plaintiffs Fail to Allege A Defect**

12 Plaintiffs spend multiple pages protesting that they need not allege *the mechanical cause*
 13 *of the alleged defect.* (Opp. 12:16-19:2) But Seagate does not contend the “mechanical cause of
 14 a defect” must be alleged. Rather, the law requires Plaintiffs to allege *a defect* with particularity.
 15 Plaintiffs must “*identif[y] a particular design or manufacturing defect and describe[] the*
 16 *connection between the defect and the harm to the plaintiff.*” *Punian v. Gillette Co.*, 2016 U.S.
 17 Dist. LEXIS 34164, *46 (emphasis added). They have failed to do so.

18 Plaintiffs quote the *Punian* court’s observation that plaintiffs there did not allege “any
 19 particular likelihood of [battery] leakage,” or that there was a “significant, substantial, likely or
 20 particular rate of failure.” (Opp., 15:8-9.) These observations are irrelevant to the holding, which
 21 rested on the plaintiffs’ failure to “identif[y] any cause for Duralock Batteries’ potential to leak
 22 within ten years, or allege[] the existence of a design or manufacturing defect in Duralock
 23 Batteries.” *Punian*, 2016 U.S. Dist. LEXIS 34164 at *47.

24 Similarly, Plaintiffs assert *Yagman* is “not a consumer protection case,” but do not explain
 25 why that is relevant—and in any event it is untrue: The *Yagman* plaintiffs alleged a putative class
 26 action on behalf of all consumers who purchased Buick Lucernes of model years 2006 to 2011.
 27 *Yagman v. General Motors Co.*, 2014 U.S. Dist. LEXIS 120045, *1 (C.D. Cal., Aug. 22, 2014).
 28 To the extent Plaintiffs assert *Yagman* is somehow inapplicable because plaintiffs there did not
 assert claims under the UCL, FAL or CLRA, they are wrong. Indeed, the distinction only

1 emphasizes why their claims fail: *Yagman* applied the lower standard of Rule 8 in dismissing
 2 claims for failure to allege a defect; because Plaintiffs here allege a fraudulent course of conduct
 3 under the UCL, FAL and CLRA, the more stringent standard of Rule 9 applies.

4 Attempting to distinguish *Decoteau*, Plaintiffs highlight that court's observation that it
 5 "does not necessarily expect all plaintiffs to have to 'plead the mechanical details' of a defect."
 6 (Opp., 16:18-19, quoting *Decoteau v. FCA US LLC*, 2015 U.S. Dist. LEXIS 152579, *9-10 (E.D.
 7 Cal. Nov. 9, 2015).) Again, Plaintiffs here fail to identify *any* defect and thus whether they must
 8 also plead the hypothetical defect's "mechanical details" is beside the point. Characterizing as
 9 "argument" Seagate's description of hard drives as "complex electro-mechanical devices with
 10 many moving parts," Plaintiffs assert "the level of complexity does not even approach that of a
 11 transmission." (Opp., 17:3-5.) Again, beside the point. The plaintiffs in *Decoteau* at least
 12 isolated the part of the vehicles they believed to be defective, the transmission. These allegations,
 13 though more specific than Plaintiffs' here, were insufficient: "Plaintiffs must go further than a
 14 conclusory allegation that [a defect] exists . . . because automatic transmissions . . . are
 15 complicated systems that demand more detailed factual allegations in order to identify a plausible
 16 defect." See *Decoteau*, 2015 U.S. Dist. LEXIS 152579 at *10.²

17 Plaintiffs do not attempt to distinguish the holding in *In re Toyota Motor Corp.*, 754 F.
 18 Supp. 2d 1208, 1222 (C.D. Cal. 2010), quoting *Lucas v. City of Visalia*, 726 F. Supp. 2d 1149,
 19 1155 (E.D. Cal. 2010), that "plaintiffs should 'identify/explain how the [product] either deviated
 20 from [defendant's] intended result/design or how the [product] deviated from other seemingly
 21 identical [product] models'" (emphasis original). The only distinction they allege between drives
 22 that did *not* fail and drives that *did* fail is the fact of failure. Thus, according to Plaintiffs, the
 23 purported "defect" *is* the failure. This is insufficient; Plaintiffs must plead a particular source or
 24

25 ² Plaintiffs assert the Court should disregard that hard drives are "complex electro-
 26 mechanical devices with many moving parts" because that description is "based upon facts not
 27 alleged in the complaint." (Opp. 17:3-4.) Yet the SAC alleges hard drives are "electromechanical
 28 data storage device[s]" that store and retrieve information for a computer using "rotating discs;"
 drives have "motors to spin or 'drive' the discs;" (SAC ¶ 30) drives "use a moving actuator arm"
 that "magnetically chang[es] or read[s] areas on the platters pursuant to instructions sent from the
 computer," and the "head arm" is "powered by an actuator motor called the servo motor;" (*Id.*, ¶
 31) and "hard drives also have firmware embedded in their memory" (*Id.*, ¶ 32).

1 cause of the failure. *See, e.g., Yagman*, 2014 U.S. Dist. LEXIS 120045 at *6 (“The fact that the
 2 engine failed renders it merely possible that a manufacturing defect was the cause”); *Wilson v.*
 3 *Hewlett-Packard Co.*, 668 F.3d 1136, 1145 (9th Cir. 2012) (“[p]laintiffs do not plead any facts
 4 indicating how the alleged design defect . . . causes the Laptops to burst into flames”).³

5 **(1) Plaintiffs’ Authorities Do Not Save Their Claims**

6 Plaintiffs cling to the purported “mechanical details” distinction, citing *Cholakyan v.*
 7 *Mercedes-Benz*, 796 F. Supp. 2d 1220, 1237 (C.D. Cal. 2011) for the proposition that they are “not
 8 required to plead the mechanical details of an alleged defect.” (Opp., 13:17-18.) But plaintiffs
 9 there alleged “defects in the . . . water drainage system” in certain vehicles that caused them to
 10 “fail[] to prevent water from entering the interior of the vehicle.” 796 F. Supp. 2d at 1224.
 11 Importantly, the *Cholakyan* plaintiffs alleged that the defect in the water drainage system caused
 12 “electrical failures,” and further alleged the defect “can cause engine failure.” *Id.*

13 Unlike the plaintiffs in *Cholakyan*, Plaintiffs here have simply skipped to the allegation of
 14 “failure,” and labeled *that* a “defect.” Analogizing to *Cholakyan*, it is as if Plaintiffs simply
 15 alleged “electrical failures” and/or “engine failure,” without alleging facts supporting any *source*
 16 of the alleged failure—in *Cholakyan*, the water drainage system. Plaintiffs fail to identify, much
 17 less allege facts supporting, any design or manufacturing defect that could plausibly have led to
 18 the supposedly “widespread” drive failures. That omission is fatal, in part because the failure to
 19 identify any defect deprives Seagate of the ability to receive “fair notice . . . and defend itself
 20 effectively.” *See Starr v. Baca*, 652 F.3d 1202, 1216 (9th Cir. 2011). Under Plaintiffs’
 21 allegations, the alleged drive failures could have resulted from a virtually limitless number of
 22 sources, including many having nothing to do with Seagate.

23 Plaintiffs’ reliance on *Aguilar v. General Motors*, 2013 U.S. Dist. LEXIS 149108 (E.D.
 24

25 ³ *See also Altman v. HO Sports Co.*, 2009 U.S. Dist. LEXIS 108971, *23 (E.D. Cal. Nov. 23,
 26 2009) (“conspicuously absent from [plaintiff’s] claims is an identification of what aspect of the
 27 [allegedly defective product] makes their design and warning defective”); *Fontalvo v. Sikorsky*
 28 *Aircraft Corp.*, 2013 U.S. Dist. LEXIS 116052 *10 (S.D. Cal. Aug. 15, 2013) (“Plaintiff does not
 include factual allegations that identify what aspect of the subject component design and
 manufacture made it defective”); *Knoppel v. St. Jude Medical Inc.*, 2013 U.S. Dist. LEXIS
 104456, *5 (C.D. Cal. May 7, 2013) (“the Complaint does not describe how any of the three
 devices were defective in a way that caused [plaintiff’s] injury”).

Cal. Oct. 16, 2013), *Ashgari v. Volkswagen Group of America*, 42 F. Supp. 3d 1306, 1328, fn 72 (C.D. Cal. 2013), and *Ehrlich v. BMW of North America*, 801 F. Supp. 2d 908 (C.D. Cal. 2010) is also misplaced. None of these cases addresses, much less contradicts, the authorities holding plaintiffs must plead facts showing a **defect**, rather than conclusory allegations of product **failure**.⁴

(2) *Pozar* Is Irrelevant

Plaintiffs rely heavily on the trial court’s decision in the earlier-filed state court *Pozar* action for the proposition that “a defect was adequately alleged.” (Opp. 13:1.) *Pozar* does not aid them, for two reasons. First, the trial court there applied the lower pleading standards of California courts. Here, Rule 9(b)’s particularity requirements apply, requiring Plaintiffs to allege “the who, what, when, where, and how” of the alleged fraud. *Vess v. Ciba-Geigy Corp.*, 317 F.3d 1097, 1106 (9th Cir. 2003). Indeed, the *Pozar* court noted that its decision turned on the fact that California law had no “specificity requirements.” *Pozar v. Seagate Technology LLC*, 2016 Cal. Super. LEXIS 5083 *6 (Cal. Sup. Ct. Feb. 10, 2016) “unless there is some *specificity* requirements, [the complaint has alleged] this is enough for now” (emphasis original). Second, *Pozar* does not say what Plaintiffs claim it does. It did not decide that the defect “was adequately alleged,” as Plaintiffs suggest. The issue there was whether plaintiffs had alleged a defect *within the warranty period*. *Id.* at **4-5 (“The question for now is whether the FAC alleges the drives were unmerchantable within the one year period he FAC *does* claim the defect existed *within* the one-year period” (first emphasis original, second emphasis added)).

⁴ In *Aguilar*, the court held that plaintiff’s allegation of “a steering defect resulting in the potential failure of power steering, pulling to the left and right, and loss of steering control” was “material to a reasonable consumer.” *Id.* at *13. The parties do not appear to have raised, and the court did not address, the issue here—whether Plaintiff alleged a defect **at all**. In any event, unlike Plaintiffs here, the plaintiff in *Aguilar* actually alleged a defect in a particular part of the car—the steering system—and connected that defect to a specifically alleged result.

In *Ashgari*, the court discusses in a footnote the defendants’ assertion, made only at oral argument, that plaintiffs “failed to plead the nature of the defect with the particularity required by Rule 9(b).” *Ashgari v. Volkswagen Group of America*, 42 F. Supp. 3d 1306, 1328, fn 72. Unlike Plaintiffs here, the *Ashgari* plaintiffs alleged a specific defect in the engine of the vehicles at issue—excessive oil consumption. *Id.* at 1328. Moreover, they connected that defect to the alleged harm, specifically that it “can cause engine failure while the vehicles are in operation.” *Id.* Plaintiffs here allege no such facts. They simply allege a **result**, “drive failure,” with no facts supporting the “what” or “how” of that result, as required by Rule 9.

Ehrlich v. BMW of North America, 801 F. Supp. 2d 908 (C.D. Cal. 2010), contains no discussion of the sufficiency of plaintiffs’ “defect” allegations at all.

b. Plaintiffs Fail to Allege Seagate Had Any Duty to Disclose

Plaintiff assert there is “some debate in federal court” as to whether a duty to disclose arises in the absence of a safety concern. However, the Ninth Circuit in *Wilson* was clear: “a manufacturer’s duty to consumers is limited to its warranty obligations absent either an affirmative misrepresentation or a safety issue.” 668 F.3d 1136, 1141 (2012). And while two district courts have found a duty to disclose absent a safety concern—see *Norcia v. Samsung*, 2015 U.S. Dist. LEXIS 110454 *17 (N.D. Cal. Aug. 20, 2015); *Stanwood v. Mary Kay, Inc.*, 941 F. Supp. 2d 1212, 1221 (C.D. Cal. 2012)—“the overwhelming majority of courts to consider the issue have found the opposite,” *Hodsdon v. Mars, Inc.*, 2016 U.S. Dist. LEXIS 19268 *17 (N.D. Cal. Feb. 17, 2016).

c. Plaintiffs Fail to Allege Seagate Knew of Any Defect

Plaintiffs assert they are not required to allege Seagate knew about the alleged defect to state a claim for fraudulent omission. To the contrary, “[i]n order to give rise to a duty to disclose, a complaint must contain specific allegations demonstrating the manufacturer’s knowledge of the alleged defect.” *Donohue v. Apple, Inc.*, 871 F. Supp. 2d 913, 927 (N.D. Cal. 2012) (emphasis in original); see also *Kowalsky v. Hewlett-Packard Co.*, 771 F. Supp. 2d 1156, 1160 (N.D. Cal. 2011) (claims subject to dismissal unless Plaintiffs make “plausible showing that the defendant knew of the alleged defect when it made the representations alleged to be deceptive”). Moreover, in order to assert a claim of active concealment, as Plaintiffs do here (see, e.g., SAC ¶ 348 [Seagate “concealed and did not disclose” information, amounting to “fraudulent conduct”]), Plaintiffs must allege “affirmative acts on the part of the defendants in hiding, concealing or covering up the matters complained of.” *Punian*, 2016 U.S. Dist. LEXIS 34164 at *51 (quoting *Lingsch v. Savage*, 213 Cal. App. 2d 729, 734, (1963). “Mere nondisclosure does not constitute active concealment.” *Herron v. Best Buy Co.*, 924 F. Supp. 2d 1161, 1176 (E.D. Cal. 2013). Courts require more than “facts showing that the defendant knew of the alleged defect and did nothing to fix it or alert customers to its existence.” *Elias v. Hewlett-Packard Co.*, 2014 U.S. Dist. LEXIS 16836 *37 (N.D. Cal. Feb. 5, 2014), quoting *Tietzworth v. Sears*, 720 F. Supp. 2d 1123,

1 1135 (N.D. Cal. 2010).⁵

2 Plaintiffs assert they have sufficiently alleged that Seagate knew of the purported defect
3 because the SAC identifies four categories of information: (1) consumer complaints, (2) the
4 Backblaze blog post, (3) statements by Seagate regarding RAID and NAS, and (4) Seagate's
5 "take-back" recycling program. (Opp. 11:8-12:15.) However, none of these allegations overcomes
6 Plaintiffs' failure to identify any defect, which necessarily includes a failure to allege what it was
7 Seagate "knew" that it was required to disclose. *See, e.g., Punian*, 2016 U.S. Dist. LEXIS 34164
8 at *35-36 (plaintiffs failed to allege knowledge and defect).

9 Plaintiffs do not contest that the Backblaze blog post and the vast majority of online
10 complaints post-date their alleged drive failures and thus cannot provide any basis for the
11 contention that Seagate "knew" about them. *See Wilson*, 668 F.3d 1136, 1145-48 ("plaintiffs must
12 sufficiently allege that a defendant was aware of a defect *at the time of sale* to survive a motion to
13 dismiss") (emphasis added). As to what a Seagate "customer support representative" purportedly
14 said about the use of Seagate's 3TB drives in RAID arrays (Opp. 12:12), Plaintiffs fail to allege
15 any connection between the allegation that the Drives were "not designed for RAID 5" and the
16 failure of any of their drives. They allege no facts that the drives failed *because of* NAS or RAID
17 configurations, that there was anything in particular about the Drives that made them unsuitable
18 for NAS or RAID uses, or that any alleged unsuitability for NAS or RAID uses harmed any of the
19 Plaintiffs. Thus, again, they have failed to plead a defect Seagate had a duty to disclose, much less
20 that Seagate knew about any such defect when Plaintiffs bought their drives.⁶

21 **2. Plaintiffs Allege No Actionable Misrepresentations**

22 Plaintiffs rely heavily on *Pozar* for the contention that they sufficiently allege actionable
23 misrepresentations. (Opp. 4:6-5:14.) Indeed, they assert that this Court must "ascertain and apply

24 ⁵ Plaintiffs assert that, because under the UCL and CLRA a plaintiff "need not show . . .
25 defendant intended to injure anyone," they are not required to plead Seagate's knowledge of the
26 Drives' purported "model-wide defects." (Opp. 10:11.) Whether the UCL and the CLRA as a
27 general matter require an element of *intent* is separate question from (a) whether *knowledge* is
28 required, and (b) whether Plaintiffs must plead *facts* that Seagate knew of the purported defect.
As the authorities cited by Seagate make clear (Mot. at 12), Plaintiffs must plead facts supporting
such knowledge, and Plaintiffs cite no authority suggesting otherwise.

⁶ As shown in the Motion, the allegations that Seagate's "take back" program demonstrates
knowledge fail on multiple levels, none of which are addressed in the Opposition. (Mot. 10:8-21.)

1 the existing California law,” and thus suggest that *Pozar* is somehow dispositive here. (Opp. 3:13-
 2 16.) As noted above, *Pozar* is irrelevant because it applied California pleading standards, whereas
 3 Rule 9 is a federal procedural requirement that applies “irrespective of whether the substantive law
 4 at issue is state or federal.” *Kearns v. Ford Motor Co.*, 567 F.3d 1120, 1125-26 (9th Cir. Cal.
 5 2009) (citations and quotations omitted).

6 Plaintiffs urge the Court to consider the allegedly actionable statements “in their overall
 7 context,” and suggest that Seagate argues the Court should do otherwise. (Opp. 15:9-15.)
 8 However, whether the Court views “the overall context” or not, the statements Plaintiffs allege to
 9 be actionable either are not statements of fact or are subjective representations about general
 10 characteristics of the Drives that are neither quantifiable nor provably true or false. Plaintiffs
 11 attempt to distinguish the holding in *Annunziato v. eMachines, Inc.*, 402 F. Supp. 2d 133 (C.D.
 12 Cal. 2005) that the phrases “performance,” “reliability,” and “long useful life” are not actionable
 13 by arguing that the case “does not stand for this blanket proposition.” (Opp. 6:11-13.) But
 14 Plaintiffs cite no authority holding that such statements *are* actionable.⁷

15 In any event, although Plaintiffs assert that Seagate’s representations here are
 16 “considerably more detailed, specific and definite” than the statements at issue in *Annunziato*, they
 17 fail to say how or why. They cite only the following alleged statement:

18 Seagate engineers had to pack 340,000 hard drive tracts into the
 19 width of a single inch [in order to fit a TB of storage on each
 20 platter]. This means that, when reading and writing data, the read-
 21 write head needs to accurately follow a track that is a mere 75
 22 nanometers wide. That’s about 500 times smaller than the period at
 23 the end of this sentence.

24 ⁷ Plaintiffs cite *Vigil v. General Nutrition Corp.*, 2015 U.S. Dist. LEXIS 63506 (S.D. Cal.
 25 May 13, 2015) and *Lima v. Gateway, Inc.*, 710 F. Supp. 2d 1000 (C.D. Cal. 2010). In *Vigil*, the
 26 court addressed the words “premium” and “maximum”—words that are not at issue here and
 27 which together suggest a measurable and quantifiable assertion, *i.e.*, the “best” or the “most.”
 28 Similarly, in *Lima*, the court addressed words not at issue here, *e.g.*, “visually intense.” More
 importantly, *Lima* held that, *in concert with* a specific representation that the video monitors at
 issue would “deliver[] more than four times the resolution of standard 720p high definition,” the
 general phrase could be understood as false or misleading given the alleged propensity of the
 monitors *not* to deliver such high resolution. Thus, *Vigil* and *Lima* at most stand for the
 proposition that words which by themselves are not actionable may be actionable only if paired
 with other statements that can be quantified. Here, as shown, the allegedly false or misleading
 statements make no such quantifiable claim, individually or in tandem with other more specific
 allegations.

(Opp. 7:4-7 [quoting SAC ¶ 51].) Plaintiffs assert that this is a “specific statement meant to impress upon the consumer that the read-write head of the hard drive is accurate and precise.” (Opp. 7:8-9.) But the SAC does not allege the read-write head is **not** accurate and precise, or, indeed, that anything in the above-quoted statement is false or misleading.

Plaintiffs next attempt to equate alleged statements by Seagate that the drives “have undergone ‘years of trusted performance,’” with the statement “most stringent quality control tests,” held to be actionable in *Annunziato*. (Opp. 7:10-13.) The analogy fails for two reasons. First, the alleged Seagate statement was not that the Drives had “**undergone** years of trusted performance,” as Plaintiffs incorrectly assert, and indeed it is not even clear how any product could “undergo” “years of trusted performance.” Rather, Seagate stated that the drives are “**supported by** 30 years of trusted performance, reliability and simplicity”—in other words, for 30 years, Seagate drives have shown “trusted performance, reliability and simplicity.” The statement found actionable in *Annunziato* was that the defendant had **actually performed** “stringent quality control tests,” which was actionable as “a specific factual assertion which could be established or disproved through discovery.” *Annunziato*, 402 F. Supp. 2d 1133, 1140-41 (C.D. Cal. 2005).

Next, Plaintiffs claim that Seagate’s annualized failure rate (AFR) statistics are actionable because they are a “specific and measurable advertisement claim of product superiority based on product testing.” (Opp. 7: 21-8:1.) The AFR numbers are statistical test results. In that sense, they are “specifically measurable,” but they make no representation as to any individual drive, nor could they reasonably be understood to do so. They also do not make any representation of superiority over other products. Plaintiffs’ authority on this point demonstrates why the alleged statement is not actionable. In *Southland Sod Farms v. Stover Seed Co.*, 108 F.3d 1134, 1145 (1997), the Ninth Circuit distinguished between statements of “general superiority,” which are not actionable, and specific statements of superiority **as to other products** that are based on “independent testing,” which may be actionable. 108 F.3d at 1145 (citing *W.L. Gore & Assocs., Inc. v. Totes Inc.*, 788 F. Supp. 800, 809 (D.Del. 1992) (“[a] numerical comparison that product is **seven times more breathable**” **than competitor products** is actionable) (emphasis added)). Even if the AFR stats could be understood as a claim of “product superiority,” they make no assertion of

1 superiority vis-à-vis other products.⁸

2 Finally, Plaintiffs erroneously assert Seagate’s alleged statements that the Drives are
3 “designed for,” “perfect for,” and “best fit” for RAID or NAS are actionable. First, Plaintiffs fail
4 to connect the allegedly actionable statements with the harm alleged. The SAC asserts Plaintiffs
5 were harmed because a “model-wide defect[]” caused the drives to “fail prematurely at
6 spectacularly . . . high rates.” (SAC ¶ 4.) However, Plaintiffs allege no facts that the drives failed
7 *because of* the NAS or RAID configurations or that the alleged unsuitability for NAS or RAID
8 uses led to any harm to any of the Plaintiffs.

9 Second, none of the alleged NAS or RAID statements could be false or misleading to a
10 reasonable consumer. Plaintiffs claim the alleged statements are actionable because “the Drives
11 are not designed for *certain types of home RAID configurations*.” (*Id.*, ¶ 6, emphasis added)
12 They further claim the alleged representations “would cause a reasonable person to believe that the
13 Drive is suitable and designed for *all* RAID and NAS configurations, including RAID 5.” (SAC ¶
14 64, emphasis added) But none of the allegedly actionable statements asserts that the drives are
15 suitable for *all* NAS and RAID configurations, nor do those statements so imply.⁹ Plaintiffs assert
16 that Seagate “should have identified which RAID and NAS arrays are actually ‘perfect’ and ‘best
17 fit’ for the drives.” (Opp., 8:17-9:1.) However, as shown above, Seagate had no duty to disclose
18 under Plaintiffs’ fraudulent omission claim and, in any event, Plaintiffs cite no authority
19 supporting the proposition that a manufacturer’s product data sheet or webpage must dispel all
20 possible implications raised by its statements.

21 **III. THE CLAIMS FOR BREACH OF EXPRESS WARRANTY FAIL**

22 Plaintiffs rely on the “failure of essential purpose” doctrine to assert Seagate breached its

23 ⁸ In any event, Plaintiffs do not allege any of the product specifications are untrue. True,
24 non-misleading information cannot support a misrepresentation claim. *In re Sony HDTV*, 758 F.
25 Supp. 2d 1077, 1093 (S.D. Cal. 2010) (FAL proscribes only a statement that is “untrue,
misleading, and which is known, or which by the exercise of reasonable care should be known, to
be untrue or misleading”).

26 ⁹ Indeed, Plaintiffs allege Seagate made representations regarding RAID uses as part of a
27 series of proposed appropriate uses for the Drives, *e.g.*, “designed for desktop, tower, or all-in-one
28 personal computers; workstations, home and small business servers; network-attached storage
devices; direct-attached storage expansion; and home and small-business RAID solutions.” (SAC
¶ 60) Does this imply the 3TB drives are suitable for all workstations, servers, and PCs as well as
all possible RAID configurations? Of course not, and no reasonable consumer would so conclude.

warranty. However, Plaintiffs misstate the doctrine as applied in the Commercial Code context, and in any event it does not aid them. A warranty “fails of its essential purpose” only when “a party is *deprived of its contractual remedy*.” *Nat’l Rural Telecoms. Coop. v. DIRECTV, Inc.*, 319 F. Supp. 2d 1040, 1055 (C.D. Cal. 2003) (emphasis added, quotations and citations omitted). Here, Plaintiffs received the remedy promised—replacement, so the doctrine does not apply. That a replacement drive might have failed does not change this analysis.¹⁰

First, Plaintiffs assert that a warranty “fails of its essential purpose” when a manufacturer fails “to cure defects under warranty within a reasonable time after a reasonable number of attempts.” (Opp., 21:7-8, *quoting In re MyFord Touch Consumer Litig.*, 46 F. Supp. 3d 936, 969-70 (N.D. Cal. 2014).) However, every case plaintiffs cite for this rule derives it from the Song-Beverly Act, which is inapplicable as a matter of law to nine of ten Plaintiffs.¹¹ Plaintiffs cite no authority that applies the same rule to warranty claims under the Commercial Code.¹²

Second, to the extent the rule derived from Song-Beverly could apply, it does not salvage Plaintiffs’ claims. Song-Beverly provides for *replacement* as a remedy where the number of

¹⁰ Plaintiffs assert Seagate “breached the terms of its warranty” because “it was unable to replace the drives with . . . *non-defective replacements*.” (Opp. 21:4-5, emphasis added.) But this is not what the warranty says. Seagate promises to provide “a functionally equivalent replacement product.” (SAC, Ex. F.) The replacement drive is also under warranty—either 90 days from replacement or the remainder of the original warranty, whichever is longer. (SAC, Ex. F.) Thus, customers are expressly provided a remedy in the event the replacement fails.

¹¹ Song-Beverly requires a purchase in California. Civ. Code § 1792. Only one Plaintiff, Enders, alleges he purchased a drive in California. *See* Cal. Civ. Code § 1792; *Annunziato*, 402 F. Supp. 2d at 1142. All other Plaintiffs are barred as a matter of law from bringing Song-Beverly claims. Plaintiffs further assert that under the “essential purpose” doctrine, “the reasonableness of the number of attempts is a *question of fact*” and thus not appropriate at the pleading stage. (Opp. 21:9-10, emphasis original.) However, none of the cases Plaintiffs cite for this proposition even mentions, much less applies, the “essential purpose” doctrine. *See Jekowsky v. BMW of North America*, 2013 U.S. Dist. LEXIS 175374, **11-12 (N.D. Cal. Dec. 13, 2013); *Robertson v. Fleetwood Travel Trailers of Calif., Inc.*, 144 Cal. App. 4th 785, 797 (2006); *Horvath v. LG Electronics Mobilecomm U.S.A., Inc.*, 2012 U.S. Dist. LEXIS 19215, **18-19 (S.D. Cal. Feb. 13, 2012). Rather, all three cases concern claims under Song-Beverly and, in particular, the Song-Beverly Act’s specific language providing for a “reasonable number of *repair* attempts” (*see Id.*) (emphasis added), which, as we show below, is irrelevant here both as a matter of fact and law.

¹² The only Commercial Code case Plaintiffs cite states that a warranty fails of its essential purpose if multiple *repair* attempts are not made “within a reasonable time.” *See Phillipine Nat’l Oil Co. v. Garrett Corp.*, 724 F.2d 803, 807 (9th Cir. 1984). *Phillipine Nat’l Oil* does not stand for the proposition that multiple *replacement* attempts can result in a “failure of essential purpose” and, in any event, here Plaintiffs received the remedy promised.

1 *attempts at repair* has been “unreasonable.” It states, in pertinent part:

2 Except as provided in paragraph (2), if the manufacturer or its
 3 representative in this state does not *service or repair* the goods *to*
 4 *conform to the applicable express warranties* after a reasonable
 5 number of attempts, the manufacturer *shall either replace the goods*
 6 *or reimburse the buyer* in an amount equal to the purchase price
 7 paid by the buyer, less that amount directly attributable to use by the
 8 buyer prior to the discovery of the nonconformity.

9 Cal. Civ. Code § 1793.2(d)(1) (emphasis added).

10 Here, Seagate replaced the allegedly failed drives, and it did so within the warranty period.
 11 Thus, Song-Beverly is facially inapplicable—the harm it seeks to prevent (failure to *repair*) is not
 12 alleged here, and the remedy it provides (replacement) is one Plaintiffs concede they have already
 13 received. The law is clear that alleging (as Plaintiffs do here) a defendant “replaced a defective
 14 [product] with a defective [product],” fails to state a claim for breach of warranty. *See, e.g., Long*
 15 *v. Hewlett-Packard Co.*, 2007 U.S. Dist. LEXIS 79262 **11-12 (N.D. Cal. July 27, 2007) (under
 16 Commercial Code, rejecting breach claim where plaintiff alleged defendant “substituted one
 17 defective [product] for another”); *Brothers v. Hewlett-Packard Co.*, 2007 U.S. Dist. LEXIS 13155,
 18 *13 (N.D. Cal. Feb. 12, 2007) (failure to state breach of warranty claim under Commercial Code
 19 where computer manufacturer allegedly “replac[ed] a defective part with another defective part”).

20 **IV. THE CLAIMS FOR BREACH OF IMPLIED WARRANTY FAIL**

21 Plaintiffs assert the privity requirement for implied warranty claims does not apply because
 22 they are the “intended beneficiaries” of contracts between Seagate and retailers. (Opp. 23:14-
 23 15.)¹³ However, “[n]o reported California decision has held that the purchaser of a consumer
 24 product may dodge the privity rule by asserting that he or she is a third-party beneficiary of the
 25 distribution agreements linking the manufacturer to the retailer who ultimately made the sale.”
 26 *Xavier v. Phillip Morris USA*, 787 F. Supp. 2d. 1075, 1083 (N.D. Cal. 2011)¹⁴

In any event, even if the “third party beneficiary” exception were recognized under
 California law, Plaintiffs have failed to plead facts supporting its application. To avail themselves

¹³ The Opposition does not dispute that the exception for reliance on a “manufacturer’s
 written representations on product labels” does not apply here.

¹⁴ Plaintiffs cite several federal decisions post-dating *Xavier* and finding that the “third party
 beneficiary” exception is available under California law. No California court has so held.

1 of the rule, Plaintiffs must allege some contractual relationship between Seagate and its retailers.
 2 *See, e.g., Huntzinger v. Aqua Lung Am., Inc.*, 2015 U.S. Dist. LEXIS 167140, **27-28 (S.D. Cal.
 3 Dec. 10, 2015). Here, Plaintiffs merely allege, conclusorily, that “Plaintiffs and Class members
 4 are intended beneficiaries of *contracts between Defendant and its authorized retailers and*
 5 *sellers.*” (SAC ¶ 365, emphasis added.) This is insufficient; it assumes the existence of unnamed
 6 contracts, the terms of which are not alleged. *See, e.g., Huntzinger*, 2015 U.S. Dist. LEXIS at
 7 **27-28 (although Plaintiff alleged relationship between manufacturer and distributor, “[t]hese
 8 conclusory allegations are not supported by facts sufficient to infer a contractual relationship”).¹⁵

9 **V. THE CLRA CLAIMS FAIL INDEPENDENTLY**

10 **A. The Claims Are Time-Barred**

11 Relying on *Philips v. Ford Motor Co.*, 2015 U.S. Dist. LEXIS **23-28 (N.D. Cal. Jul. 7,
 12 2015), Plaintiffs assert the “discovery rule” tolled the statute of limitations for their CLRA claims
 13 until each Plaintiff’s drive failed. (Opp. 25:2-9.) *Philips* does not aid them. First, the discovery
 14 rule “delays accrual until the plaintiff has, or should have, inquiry notice of the cause of action.”
 15 *Fox v. Ethicon Endo-Surgery, Inc.*, 35 Cal. 4th 797, 807 (2005). Plaintiffs are charged with inquiry
 16 notice if they have “the *opportunity to obtain knowledge from sources open to [their]*
 17 *investigation.*” *Id.* at 807-808 (quotations and citations omitted, emphasis added). Here, the only
 18 purported “defect” was drive failure itself—and, as the SAC alleges, the assertion that Seagate
 19 drives may fail was widely available when Plaintiffs purchased their drives. (See, e.g., SAC ¶¶
 20 256-263.) Accordingly, the statutory period began to accrue then, and the claims of Plaintiffs
 21 Nelson, Hauff, Schechner, Crawford, Dortch and Smith are time-barred.¹⁶

22 **B. Plaintiffs Failed to File Venue Affidavits**

23 Plaintiffs cite two cases where courts did not dismiss because a plaintiff had not filed the
 24 venue affidavit required pursuant to Cal. Civ. Code § 1780(d). (Opp. 24, fn 156.) However, in
 25

26 ¹⁵ Plaintiffs appear to assert that the limited warranty *itself* is the unspecified contract
 27 between Defendant and its authorized retailers. (SAC ¶ 365.) This makes no sense. The warranty
 28 is plainly not an agreement between Seagate and any retailer or seller. (See SAC, Ex. F.) In any
 event, Seagate does not dispute the existence of an express warranty between it and *customers*
 who satisfy the warranty’s terms. The issue is whether there is also an implied warranty.

¹⁶ Plaintiffs admit Smith’s CLRA claim is time-barred. (Opp. 25, fn 166.)

those cases the *original plaintiff* filed the required venue declaration with the *original complaint*, but was later removed from the action. Here, neither of the original plaintiffs, Nelson and Ginsberg, filed venue declarations—*ever*. (See Dkt. 1.) The fact that Nelson filed an affidavit with the *amended* complaint does not remedy the original failure; nor does it fulfill the obligations of the other Plaintiffs to file their own affidavits. *See In re Sony HDTV*, 758 F. Supp. 2d at 1094 (dismissing CLRA claim in a consolidated class action complaint because plaintiffs failed to provide the required affidavits); *In re Apple & AT&T iPad Unlimited Data Plan Litig.*, 802 F. Supp. 2d 1070, 1077 (N.D. Cal. 2011) (same).¹⁷

VI. THE CLAIMS FOR “UNJUST ENRICHMENT” FAIL

Plaintiffs assert their duplicative “unjust enrichment” claim survives because they “may plead an unjust enrichment claim in the alternative.” (Opp., 25:12.) But the weight of authority holds such alternative pleading is improper, including (as Plaintiffs acknowledge) a decision by this Court. *See Dickey v. Advanced Micro Devices, Inc.*, 2016 U.S. Dist. LEXIS 47383 *24 (N.D. Cal. Apr. 7, 2016) (Whyte, J.) (rejecting “alternative pleading” contention because, as here, plaintiffs’ “unjust enrichment theory rests on allegations covered by other claims that provide for legal remedies”) (quotations and citations omitted).

VII. CONCLUSION

The SAC should be dismissed in its entirety and without leave to amend.

¹⁷ Plaintiffs attempt to distinguish *In re Sony* on the basis that the plaintiffs there “had been directed to file venue affidavits but failed to do so.” (Opp. 24, fn 156.) In that case, the plaintiffs had been previously dismissed without prejudice for failing to file affidavits, and the court again dismissed when they failed to cure. That does not mean Plaintiffs here had the option of waiting until an initial dismissal to file their affidavits.
